

Specialist Hazardous Substances

Ihre Aufgaben

You will conduct operational hazardous substances management activities related to Safety Data Sheet creation, develop and administer Safety Data Sheet management to ensure compliance and improve technology performance across ContiTech globally.

Your tasks are

- Creation of Safety Data Sheets (SDS) for CT products worldwide and classify mixtures according to Globally Harmonized System of Classification and Labelling of Chemicals (GHS).
- Maintenance and administration of central database for SDS management.
- Support global CT SDS creation process in line with applicable requirements.
- Staying updated on SDS aspects and related global regulatory requirements.
- Information of stakeholders about relevant changes, updates, and requirements regarding SDS topics.

Ihr Profil

We require advanced expertise in safety data sheet compliance management and legal standards such as GHS/CLP, REACH, POP, and TSCA, along with a solid understanding of compliance, fluency in English, and excellent communication skills.

Your qualifications are

- chemical assistant, laboratory assistant, chemical engineer or comparable science; technical education minimum requirement.
- professional experience in the chemical industry or comparable production with a focus on Safety Data Sheet management.
- Experience in material compliance, monitoring, and analyzing chemical legislation.

Über uns

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent, and affordable solutions for vehicles, machines, traffic and transportation. In 2023, Continental generated sales of €41.4 billion and currently employs around 200,000 people in 56 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
