

Demand Fulfillment Cluster Manager FHS IEMEA

Ihre Aufgaben

For the product cluster Fluid Handling Solutions within BA IEMEA, you:

- lead the E2E SIOP process and ensure the short/ mid term SC planning and its operational execution (on an 18 months time horizon)
- involve all relevant functions (segments/ verticals, operations units, supply chain, controlling)
- ensure full transparency and alignment within the BA along the complete process and across BAs, where required
- strive to achieve the agreed service level for each segment/ vertical, supporting the sales, Ebit & WoC targets of the BA
- optimize the utilization of production capacities and inventory structures, while considering and adjusting to R&O's
- you ensure & follow-up on the agreed strategy, tactics & measures
- lead the product cluster related plant SCM units

To operate the E2E SIOP process you are supported by & closely collaborate with the "SIOP Operations Team".

Ihr Profil

- Degree in SCM, Economics, Engineering, Operations, Business (university / university of applied science)
- Several years of professional experience in Supply chain Planning, E2E SIOP operations (good cross-functional knowledge)
- Experience in design of SCM processes and in SCM tools and methods, in particular familiarity with the supply chain planning area
- Solid SAP know-how
- Leadership experience >5 years and on BA/segment level (or comparable)
- Strong communication, facilitation & moderation skills, in a highly operational & dynamic context
- Successful working experience in an international organization/ context
- High level of customer orientation
- english language skills on C-Level

Über uns

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent, and affordable solutions for vehicles, machines, traffic and transportation. In 2023, Continental generated sales of €41.4 billion and currently employs around 200,000 people in 56 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
