

Mobile Application Developer

Vaše náplň práce

Continental's digital capabilities are growing every day. Our Data and Customer Solutions team creates a wide range of technology solutions for Continental's Global Sales and Marketing teams – and we want you to join us!

Our team continuously works on the digitalization of our business-to-business processes and end consumer communication, using leading mobile technologies and a strong focus on mobile applications (iOS, Android) and SDKs with the help of emerging AI technologies.

If you'd love to join a global team that works on the latest technologies and creates value-added solutions for customers, Continental is the perfect match for you.

Key Responsibilities

- Develop, enhance, and maintain B2B eCommerce mobile applications for iOS and Android platforms.
- Collaborate with cross-functional teams (designers, backend developers, product owners) to define, design, and deliver new features.
- Conduct unit testing and quality assurance to ensure application stability, usability, and performance.
- Manage incidents, problem resolution, and change requests related to mobile applications.
- Participate in mobile application rollouts, implementations, and optimizations across global markets.
- Contribute to innovative projects, including AI-powered mobile SDK development.
- Provide technical guidance and progress updates to key stakeholders.
- Stay up-to-date with industry trends and emerging mobile technologies.

Váš profil

- Bachelor's degree in Computer Science, Information Technology, or equivalent professional experience.
- 3+ years of hands-on software development experience in mobile applications.
- Proven track record in building and releasing mobile applications, ideally with Flutter.
- Knowledge of Swift (iOS) or Kotlin (Android) is an advantage.
- Strong understanding of mobile app architecture patterns, state management, and responsive UI design.
- Experience integrating mobile apps with RESTful APIs and third-party libraries.
- Familiarity with Agile methodologies (Scrum, etc.) and tools such as GitHub and Jira.

O nás

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
