

IT Service Owner Teamcenter PDM System Tires (m/f/diverse) - REF893030

Tus actividades

We are seeking a highly skilled and experienced IT Service Owner for our Product Specification System Tires based on Teamcenter Platform (Siemens) to join our R&D IT team in Hannover, Germany. In this role, you will be responsible for ensuring high-quality service operations and development in alignment with ITSM standards and defined SLAs. You lead the activities of a global R&D IT service team consisting of internal and external members, managing day-to-day operations, support, maintenance, and continuous software development/customization of the service. This role includes steering infrastructure providers in the data center, supporting project initiatives, and driving operational excellence with a focus on optimal total cost of ownership.

IT Management & Leadership

- Coordinate global service activities to ensure seamless delivery.
- Control and manage the quality and efficiency of IT service delivery.
- Handle escalation processes with R&D IT and R&D Management.
- Foster skill and knowledge development within the service team.
- Oversee service infrastructure and ensure its reliability and scalability.

Application Development

- Analyze, design, and implement new customer requirements.
- Collaborate with stakeholders to translate business needs into technical solutions.

IT Operations & Governance

- Manage core ITSM processes including:
 - Incident Management
 - Problem Management
 - Change Management
 - Release Management
- Oversee software development activities related to the service.
- Ensure IT security and compliance with internal and external standards.

Application Operations & Support

- Analyze and resolve service-related incidents.
- Conduct root cause analysis for recurring issues.
- Develop mid- and long-term solutions to improve system stability and performance.

Quality & Standards

- Apply and evolve best practices in design, coding, testing, and documentation.
