

SAP Sales and Distribution System Specialist - CKU

Descrição da função

As the Sales and Distribution Central Key User participate in business projects which focus on implementation of new systems, upgrading existing solutions, modifications in processes as the business process matter expert.

- Act as the liaison of business requirements and integrate various functions such as Inside Sales, Supply Chain, Logistics, Operations, Master data, Pricing, Dispatch and related areas.
- Responsible for preparing book of requirements with information of our current systems capabilities with support of the project team members.
- Evaluate the SAP change requests coming from the Americas market, validate whether they are feasible based on business processes and evaluate and decide on next steps. Define whether the changes are based on processes enhancements, error corrections, legal requirements, and/or cost savings.
- Prioritize the requests and communicate the changes to IT department which will be responsible for making the actual changes. Coordinate the communication with IT and the markets.
- Test the data in the system to ensure the changes are working correctly and the reports are correctly generated.
- Provide day-to-day online support and perform tasks due central responsibility.
- Train system users on new reports, transactions and/or procedures according to organization policy related to Sales and Distribution module.
- Research and resolve open user problems related to Sales and Distribution procedures or escalate them to other areas of support.
- Suggest process enhancements to markets by providing guidance on best practices and engaging with upper management for approval of future projects.
- Review or prepare manuals with process documentation for Local Key users related to Sales and Distribution topics (such as master data, housekeeping, inter-company, sales order entry, interfaces, pricing, dispatch and more).
- Test business processes in the SAP systems (due change requests, enhancement packs, system copies, upgrades, etc.).
- Assist with rollout of SAP solutions (focus on Sales and Distributions functions) to current or new organizations.
