

Demand and Supply Chain Analyst

Your tasks

HOW YOU WILL MAKE AN IMPACT

Ensure product availability and delivery reliability along supply chain: (End to End)

- Review inventory levels to make sure market demand is met and there is no excess inventory
- Ensure inventory levels are within the agreed Target Stock
- Review un-confirmations and follow up with plants and markets
- Monitor forecast changes throughout the month
- Identify and discuss with local markets demand variations and adjustments based on historical data
- Closely monitor and manages inventory gaps to improve fill rate
- Ensure inventory levels stays within the warehouse capacities
- Monitor BKO root causes and address solutions
- Long term demand fulfillment for key marketing lines and/or articles
- Manage phase in and phase outs including but not limited to inventory development and status communication
- Monitor Add Inventory development
- KPI and reports maintenance

Collaborate and coordinate with Markets and Supply Chain Organizations:

- Align priorities with markets and communicate within the Supply Chain organization.
- Monitor inbound deliveries to stay within each DC's inventory limits based sales tracking.
- Work with Supply Management and Global Tire sourcing to identify/propose alternative solutions to reduce production constraints and shortages.
- Alert Management of manufacturing issues and actively identify supply shortage.
- Proactively review and communicate any FC changes or opportunities for production capacity review.
- Manage new launch inventory volumes and work with Plant on SOPs
- Centralize and support Market Data developments and set ups in AM region
- Work with all markets within the Americas to ensure market data integrity and sustainability

Special projects and reports as requested.
