

Purchasing Analyst

หน้าที่ความรับผิดชอบในงานของคุณ

As the Purchasing associate gains more knowledge and becomes exposed to Purchasing areas either Production Materials or NPM, his/her skills and competencies can be identified/aligned accordingly into the Purchasing Organization.

Indirect/Direct Materials - building vendor relationships, sourcing and negotiating, drive for cost savings

Procurement / SCM - analytical and decision making skills that impacts Production plans and/or Sales commitments to end-customer

An Analyst is expected to provide resolutions on issues from day-to-day ops and conduct data mining for RCAs to identify preventive and corrective actions

Purchasing Buyers are given the authority to approve or reject shopping carts

The additional responsibilities assigned gives exposure to analytical tasks support cost savings, and more interaction with business partners to build relationships.

โปรไฟล์ของคุณ

affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
