

Central Key User – SAP Production Planning (PP)

Tus actividades

Job Summary:

We are looking for an experienced and proactive Central Key User for SAP Production Planning (PP) to support and optimize production planning processes across our OESL organization. In this role, you will act as the link between end-users, production teams, and IT, driving improvements in SAP PP usage and ensuring system integrity, training, and continuous process alignment across all OESL locations.

Key Responsibilities:

- Serve as the main point of contact for SAP PP at the corporate level, coordinating with local key users and central SAP teams.
- Support and optimize production planning processes such as demand planning, material requirements planning (MRP), capacity planning, and shop floor execution within SAP.
- Collaborate with IT and SAP consultants to define business requirements, develop functional specifications, and participate in solution design and testing.
- Document and analyze current PP processes, identify gaps, and recommend system improvements or best practices.
- Provide training, guidance, and support to local key users and production planners in the use of SAP PP functionalities.
- Prepare and maintain training materials, process documentation, and user guides.
- Lead and participate in testing activities such as functional testing, integration testing, and user acceptance testing (UAT) during SAP enhancements or rollouts.
- Ensure data accuracy and consistency, particularly related to production master data (e.g., BOMs, routings, work centers).
- Manage and monitor incident tickets and change requests related to SAP PP.
- Work closely with related functional areas such as SAP MM (Materials Management), SD (Sales & Distribution), and WM (Warehouse Management) to ensure end-to-end process integration.

Tu perfil

- Bachelor's degree in Industrial Engineering, Supply Chain, Manufacturing, Business, or related field.
- Minimum 5 years of hands-on experience in SAP PP as a key user, process expert, or similar role.
- Strong knowledge of production planning and manufacturing processes, including MRP, scheduling, and capacity planning.
- Experience with SAP ECC or SAP S/4HANA in the PP module is essential.
- Understanding of integration with other SAP modules such as MM,
