

Digitalization & RPA Specialist

Your tasks

Key Responsibilities

- Assist in the **design, development, and implementation** of RPA solutions under the guidance of senior developers.
- Translate **business requirements and process documentation** into automation workflows.
- Participate in **testing, debugging, and deployment** of bots into production environments.
- Support **maintenance and monitoring** of existing automations to ensure smooth operations.
- Collaborate with business users, analysts, and IT teams to identify automation opportunities.
- Document workflows, technical designs, and support materials for knowledge sharing.
- Stay current on RPA trends and best practices while continuously learning new features in UiPath and related automation tools.

Your profile

Required:

- Bachelor's degree in Computer Science, Information Systems, or related field (or equivalent practical experience).
- Basic understanding of **process automation, Subscribing (SAP), or programming** (e.g., Python, C#, VB, SQL, Java, .NET).
- Strong analytical and problem-solving skills with attention to detail.
- Ability to work in a collaborative team environment and communicate effectively with technical and non-technical stakeholders.
- Eagerness to learn new technologies and continuously develop automation skills.
- Fluent level of English is mandatory

Preferred (nice to have):

- Experience working with leading RPA platforms (e.g., **UiPath**, Blue Prism, Automation Anywhere) or similar automation tools.
- Experience with **Excel VBA, macros, or database querying (SQL)**.
- Familiarity with APIs and system integrations.
- Any **UiPath certification** (e.g., RPA Associate) is a plus.
