

Global IT Team Lead SAP FICO_BA Original Equipment Solutions

Descrição da função

Are you an ambitious IT professional looking for challenges, growth, and flexibility? You are structured and enjoy communicating and exchanging with stakeholders while driving things forward? Then you've come to the right place.

The OESL IT department is newly conceived and being built now! With this pioneering effort, OESL IT will be flexible, fast, and forward-thinking. Our IT team will become a strategic advisory partner, strengthening digital capabilities and driving business success.

In your role as **Global IT Team Lead SAP FICO** you will be responsible for the overall strategy, governance, and delivery of SAP Finance and Controlling solutions across the organization's global landscape. This role ensures that SAP financial processes are harmonized, compliant, and aligned with business objectives – driving efficiency, automation, and financial integrity.

The position acts as both a **functional leader** and a **solution architect**, managing a global team of SAP FICO experts and collaborating with cross-functional leads (SD, MM, HR, SCM) to ensure an integrated enterprise solution.

Your Responsibilities:

- Lead the global SAP FICO team in designing, implementing, and supporting SAP Finance and Controlling processes (GL, AP, AR, AA, CO, COPA, etc.).
- Govern global SAP FICO template design and ensure consistency across regions and business units.
- Manage the FICO configuration, enhancements, and transports.
- Drive process standardization, simplification, and continuous improvement.
- Lead a team of SAP FICO consultants and central key users
- Provide mentorship, career development, and performance management for FICO team members.
- Coordinate with global Process Owners, PMO, and BASIS/ABAP/Integration teams for project delivery.
- Ensure that SAP financial processes comply with internal controls IFRS/GAAP and audit requirements.
- Oversee the design, build, and rollout of SAP FICO functionality in global or regional projects.
- Manage issue resolution, root cause analysis, and continuous support for production systems.
- Support the organization's journey to S/4HANA through planning, migration, and adoption.
