

SAP PP Consultant_OESL

Tus actividades

Are you an ambitious IT professional looking for challenges, growth, and flexibility? You are structured and enjoy communicating and exchanging with stakeholders while driving things forward? Then you've come to the right place.

The OESL IT department is newly conceived and being built now! With this pioneering effort, OESL IT will be flexible, fast, and forward-thinking. Our IT team will become a strategic advisory partner, strengthening digital capabilities and driving business success.

The position holder should contribute to develop SAP processes for all systems within ContiTech Business Area OESL setup.

Key Targets:

- Having a consulting role for new technical enhancements and projects to ensure standard stakeholder-oriented architecture
- Creating transparency and alternative solutions for technical developments which are not following standards
- Creating awareness of cross module/process dependencies and ensuring of consistency of SAP system
- Ensuring utilization and sharing of lessons learned and technical best practices for scalability and efficiency

Main Tasks - including but not limited to:

- Managing and consulting on technical developments required in SAP
- Ensure transparency on cross module impacts during projects / changes
- Contribute to technical design decisions to assure overall system/process scalability and performance (aligned with SAP Competency Centers)
- Collaborate with dependent SAP projects and Change requests to assure regression tests and validations
- Ensure efficient utilization of processes and technical improvements once they are implemented
- Highlight technical processes which are not build according to SAP standards and assure alignment to future template
