

SAP QM Central Key User

Responsabilități

The SAP QM Central Key User (CKU) is the primary business representative and subject-matter expert for all Quality Management processes within the SAP landscape. This role acts as the bridge between business operations, IT, and external consultants, ensuring that SAP QM supports efficient, compliant, and standardized quality processes across the organization. The CKU leads testing, training, continuous improvement, and issue resolution related to SAP QM.

Key Responsibilities

- Serve as the central expert for SAP QM across all company sites.
- Maintain and enhance QM master data (inspection plans, sampling procedures, MICs, code groups, catalogs, etc.).
- Ensure global/central process harmonization and adherence to SAP QM standards.
- Act as the first line of support for SAP QM issues raised by local key users or end users.
- Analyze incidents, identify root causes, and resolve issues—or escalate to IT/SAP support when necessary.
- Monitor interfaces and integrations related to QM (e.g., LIMS, MES, shop floor systems).
- Participate in SAP implementation, rollouts, upgrades or improvement projects.
- Support the creation of functional specifications for system enhancements.
- Create and maintain documentation such as process descriptions, SOPs, training materials, and work instructions.
- Support audit readiness by providing SAP QM-related evidence and reports.
- Facilitate knowledge transfer and ensure consistent understanding of QM functionalities.
- Lead change management activities for new processes or system updates.
- Maintain and improve data quality for all QM-related master data and transactional data.

Cerințe

- Bachelor's degree in Engineering, Quality Management, IT, Supply Chain, or related field.
- 3-7 years of experience in Quality Management processes in an industrial setting.
- Hands-on SAP QM experience (end user, key user, or superuser level).
- Strong understanding of manufacturing and quality control
