

Supply Chain Planner

หน้าที่ความรับผิดชอบในงานของคุณ

Integrating the Supply Chain area within the Operations and Logistics Division, this professional will be responsible for managing the availability of a portfolio of products. Their main activity will focus on the production planning process, defining the quantities to be produced for each item according to the needs of different global markets, in order to maintain balanced stock levels of our products throughout the entire supply chain. They will have the opportunity to collaborate with various local and global interfaces, from manufacturing to final markets, and will also play an important role in optimizing our digital infrastructure.

โปรไฟล์ของคุณ

- Higher education degree in Industrial Management Engineering, Mechanical Engineering, or other Engineering fields (preferred).
- Good command of English (minimum European level B2). Good computer skills (Office tools).
- Knowledge of one or more tools that enable better data and information management is an advantage (e.g. PowerQuery, PowerBI, Knime, SQL, Python, etc.).
- Professional experience in supply chain or production planning is useful but not required.

ข้อเสนอของเรา

- Integration into a challenging and international environment characterized by the use of cutting-edge technology;
- Attractive compensation and benefits package;
- Continuous professional training and excellent prospects for personal and professional development.
