Key Responsibilities:

- Promote and maintain a safe work environment
- Ensure associates have the tools and training needed to work safely
- Conduct root cause analyses and implement corrective actions for safety incidents
- Lead daily safety meetings and ensure compliance with ESH policies and legal requirements
- Assign and supervise labor to meet production goals
- Communicate plant policies and procedures effectively
- Ensure team members receive proper training, including safety, job certification, and quality alerts
- Drive process improvements to increase productivity
- Maintain accurate documentation including time & attendance, payroll, overtime, training records, and process audits
- Attend daily shift hand off meetings
- Responsible for entering work orders
- Ensure production meets quality standards and delivery targets
- Support Lean initiatives and participate in Continental Business System (CBS) activities to reduce variation and eliminate waste
- Perform other duties as directed by the Department Manager

NOTE: May not be inclusive of all work required and may be updated as needed.
