

Teamlead Product Testing - Competence Center

Your tasks

Are you ready to shape a brand new testing hub from the ground up? We're looking for a forward thinking **Teamlead of Product Testing** to lead our new **Conveyor Belt Testing Competence Center** in Szeged – a state of the art facility bringing together a wide range of standard, specialized, and unique testing capabilities.

This is a rare opportunity to build a team, establish processes, and influence the future of product testing within a global organization.

- Lead and develop our new Conveyor Belt Test Competence Center
- Plan, coordinate, document, and analyze product tests for conveyor belts
- Manage the full lifecycle of test assignments – from planning and initiation to execution, monitoring, and evaluation
- Interpret test results and prepare clear, high quality test reports
- Drive the development of new test benches, procedures, and standards
- Serve as the primary technical contact for internal and external partners, including engineers and product developers
- Collaborate closely with R&D, Quality, Operations, and other key departments
- Build, mentor, and coordinate a team of skilled testing technicians
- Provide technical guidance and support to your team and stakeholders
- Contribute to ongoing development activities and continuous improvement initiatives

Your profile

- A university degree in production or engineering management, industrial engineering, or a related field
- At least 3 years of professional experience in manufacturing
- Experience with rubber and plastic production processes is a strong advantage
- Proven experience in team building and leadership is preferred
- Comfortable working in international, cross functional environments
- Strong communication skills and the ability to collaborate across interfaces
- Proficiency in at least two languages – Hungarian, **English or German is required**

About us

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent, and affordable solutions for vehicles, machines, traffic and transportation. In 2023, Continental generated sales of €41.4 billion and currently employs around 200,000 people in 56 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
