

## Purchasing Local Key User

หน้าที่ความรับผิดชอบในงานของคุณ

The Purchasing Local Key User will act as strategic enablers ensuring enforcement of the global purchasing template, proper management of data harmonization and quality, continuous improvement of rollout quality through lessons learned.

The role is responsible for rolling out the Purchasing template for NPM and PM in the assigned IMPACT location. The position requires active involvement across all phases of the 12-month rollout project, including kick off, Fit-to-Template, migration validation, process and integration testing, user acceptance testing (UAT), end user training, cut-over planning, go live activities and hypercare.

### Purchasing local Key User activities

- Project Support: Serve as the key user for the SAP S/4HANA implementation project, representing the purchasing department's interests and requirements.
- System Knowledge: Utilize in-depth knowledge of SAP MM (Materials Management) and overall Purchasing processes to support the configuration and customization of the new system.
- Stakeholder Collaboration: Work closely with IT, procurement, and other internal stakeholders to gather requirements, provide input, and ensure alignment on project goals.
- User Support: Provide support to internal users during the implementation, addressing any issues and ensuring a smooth transition to the new system.
- Training and Support: Develop and deliver training materials and sessions for internal users on the new SAP S/4HANA system.
- Data Migration: Assist in the migration of data from SAP R/3 to SAP S/4HANA, ensuring data integrity and accuracy.
- System Optimization: Identify and implement enhancements to the new system to improve functionality and user experience.
- Compliance: Ensure all activities related to the implementation comply with company policies, industry regulations, and legal requirements.
- Reporting: Generate and analyze reports on project progress, system performance, and user feedback to drive continuous improvement.
