

(Senior) Development Engineer (m/f/diverse) BF UHP - REF92343Y

Vaše náplň práce

Are you ready to push the limits of tire technology? Join us as a **(Senior) Development Engineer (m/f/diverse) BF UHP** at our Hannover-Stöcken location. In this role, you will drive innovation in the development of **Ultra High Performance tires**, ensuring top-tier safety, handling, and efficiency for premium and sports vehicles. If you have a passion for advanced engineering, thrive on technical challenges, and want to shape the future of mobility, this is your chance to make an impact.

Your main tasks are:

- Planning, budgeting and leadership of UHP tire development projects in order to meet customer as well as internal performance requirements
- Identification and application of necessary technologies, resources and Know-How to meet customer expectations
- Design and management of a development strategy
- Continuous alignment of obtained test results with requirement profiles
- Coordination of in-time tire building, testing and delivery to customers
- Implementation of approved specifications into production as well as monitoring of serial production
- Solution of all development related tasks in line with OE strategy
- Participation in line-and technology projects, as well as leading of target approval projects

Váš profil

- Academic degree in engineering, automotive engineering, natural sciences or similar disciplines
- Experience in tire development preferred
- Project leadership experience
- Fluent English language skills (written and spoken), German language skills desired
- Willingness to act and to take over responsibility (e.g. project lead)
- Strong team player
- Very good communication skills

Applications from severely handicapped people are welcome.
