

Technical HCM Consultant - Integration and Data Migration

Your tasks

Join our dynamic Information Technology team as a Technical HCM Consultant in the Business Applications department. As a Technical HCM Consultant with a focus on Integration and Data Migration, you are an essential part of the Oracle HCM implementation project and subsequent support and operations team. You are responsible for designing, developing and deploying integrations based on the Oracle Integration Cloud. Moreover, you are responsible for the technical data migration using HCM Data Loader.

Your key responsibilities are:

Integration Development

- Gather and validate integration requirements;
- Design integration architecture (batch, real-time, APIs);
- Develop/configure integration flows, mappings, transformations;
- Implement error handling, logging, monitoring, and retries;
- Deploy integrations across environments;
- Monitor and support in production; troubleshoot issues;
- Maintain integration documentation (design, runbooks).

Data Migration

- Understand Oracle HCM data model and consult Global Process Owners, HR System Operations Specialists, and SMEs regarding HR master data management best practices;
- Define data sources; perform data discovery and profiling in legacy systems;
- Define data mapping and transformation rules;
- Cleanse, standardize, dedupe, enrich data;
- Build extraction, transformation, and load (ETL) scripts/processes;
- Support data migration using HCM Data Loader;
- Address data quality issues, discrepancies, and missing data;
- Document mapping logic, transformation rules, migration procedures...

Environment & Release Management

- Perform technical tasks of environment and release management;
- Ensure version upgrades run smoothly on the OESL infrastructure.

Your profile

- Academic degree in computer science, information technology, business informatics, or comparable qualification;
- Experience in Cloud or SaaS deployment cycle, version control;
