

Public Funding Analyst R&D Controlling

Vaše náplň práce

Key Responsibilities

- Project Planning & Calculation
 - Independently calculate costs and performance metrics for funding projects
 - Analyze planned values and reconcile them with eligible costs and funding plans
 - Determine cost components such as hourly rates for claiming personnel cost
 - Extract and validate data from systems (e.g., SAP, Excel) and coordinate with relevant departments
- Application & Compliance
 - Prepare and submit application documents for R&D funded projects
 - Ensure compliance with funding guidelines and internal approval processes
 - Handle audits and prepare final reports
- Project Tracking and Reporting
 - Regularly update calculations and analyze deviations
 - Properly document all funding-related project information
 - Prepare regular internal as well as external reporting while keeping track of all relevant deadlines
- Stakeholder Coordination
 - Align with internal departments, Controlling colleagues, and funding authorities throughout all phases of the projects (i.e. from proposal to post completion audits)
 - Act as funding project administrator by coordinating all necessary funding related workstreams
- Global R&D Funding
 - Build up transparency of all relevant R&D funding schemes (incl. tax incentives) used in the global R&D organization across locations
 - Support in standardizing documentation approaches (e.g. time tracking)
- Non funding-related Controlling tasks
 - Support the global R&D Controlling team with location specific Controlling tasks
