

# Active Directory Engineer

## 담당 업무

As an Active Directory third level support Engineer (m/f/d) you are part of a motivated, collaborative, and skilled team of Directory Services Specialists in a global environment which is operating and maintaining our enterprise-level Resource Directory infrastructure. This role involves troubleshooting complex issues, ensuring the stability, security, efficiency of our directory services, and collaborating with other IT teams to support business operations.

### Key Responsibilities:

- Operation of Active Directory in a MS TIER-Model.
- Troubleshoot and resolve complex AD-related issues in close cooperation with the specialists, external partners, vendors and other IT teams.
- Operate and enhance Microsoft Entra ID as the central identity platform, including Conditional Access, MFA, Identity Protection, PIM, and Access Reviews.
- Manage and optimize hybrid identity services, ensuring secure and reliable synchronization of identity objects from on prem AD to Entra ID.
- Operate and improve identity governance processes such as lifecycle workflows, entitlement management, and role-based administration.
- Support application onboarding using modern authentication standards (OAuth 2.0, OpenID Connect, SAML, SCIM provisioning).
- Perform cloud security and compliance assessments, monitoring identity posture and enforcing security policies.
- Provide 3rd Level Support and consulting for Entra ID, federation, and identity related cloud services across Continental.
- Operate, maintain and manage AD Backup solution.

## 지원자 프로필

- Academic degree in Computer Science, Information Technology, or a related field;
- At least 3 years of experience managing Microsoft Entra ID in an enterprise environment (Conditional Access, MFA, PIM, Identity Governance, app registrations);
- Experience in AD service administration in a multi-domain forest, enterprise environment (pref. 3+ years);
- Experience with hybrid identity solutions (AAD Connect or Cloud Sync);
- Strong understanding of modern authentication (OAuth, OIDC, SAML) and SCIM provisioning;
- Relevant certifications such as SC-300, SC-100, MS-102, AZ 104 are a strong plus;
- Experience in scripting with PowerShell;
- Good knowledge in Windows Server 2019 and 2022;
