

Consultant Cybersecurity Governance (m/f/d)

Vos activités

You really want to shape big things? Here you are - be part of ContiTechs central Cybersecurity team where you have the chance to further develop our ISMS incl. reporting landscape. In this role you

- Define, maintain, and continuously improve rules, procedures, and processes in the ISMS considering internal and external requirements.
 - Take over Lifecycle Management of Cybersecurity Rule Landscape
 - Manage and evolve the regulatory landscape as an efficient and effective regulatory system for cybersecurity
 - Implement and execute rule adherence measurement processes
 - Execute Cybersecurity Assessments
 - Exercise policy authority on the topic of cybersecurity
 - Assess and process security exceptions
 - Work with various data sources and to identify cyber risks within the organization
 - Conduct cyber risk assessments and prioritize risks based on their potential impact on the organization
 - Further develop the IT Service framework for cyber risk management
-
- Actively track cyber risks, including evaluation of mitigation effectiveness
 - Support the management of ContiTechs external security posture

This role serves as the primary point of contact for rule interpretation and management / risk controls.
