

## Consultant Cybersecurity Governance (m/f/d)

### 담당 업무

You really want to shape big things? Here you are – be part of ContiTechs central Cybersecurity team where you have the chance to further develop our ISMS incl. reporting landscape. In this role you

- Define, maintain, and continuously improve rules, procedures, and processes in the ISMS considering internal and external requirements.
  - Take over Lifecycle Management of Cybersecurity Rule Landscape
  - Manage and evolve the regulatory landscape as an efficient and effective regulatory system for cybersecurity
  - Implement and execute rule adherence measurement processes
  - Execute Cybersecurity Assessments
  - Exercise policy authority on the topic of cybersecurity
  - Assess and process security exceptions
  - Work with various data sources and to identify cyber risks within the organization
  - Conduct cyber risk assessments and prioritize risks based on their potential impact on the organization
  - Further develop the IT Service framework for cyber risk management
- 
- Actively track cyber risks, including evaluation of mitigation effectiveness
  - Support the management of ContiTechs external security posture

This role serves as the primary point of contact for rule interpretation and management / risk controls.

### 지원자 프로필

- Academic degree in a relevant field, equivalent Information Security certifications (e.g., CISM) are desired
- Several years experience in the field of Information Security
- Comprehensive knowledge of IT infrastructure, cybersecurity, and industry standards (e.g., ISO27001, NIST, NIS2)
- Fluency in English (written and spoken)
- Experience in IT, process management, and Cybersecurity Governance
- Strong analytical skills and experience in defining cybersecurity governance, including measurable KPIs
- Interpersonal and intercultural skills to work with different stakeholders

Applications from severely handicapped people are welcome.
