

UI/UX Designer

Tus actividades

We are looking for a UI / UX designer who is extremely passionate about designing highly intuitive, customer friendly screen designs for Web applications and Mobile apps. You will be based in our Corporate HQ in Hannover. Do you want to be a part of this exciting journey and make a difference?

Responsibilities:

- A deep understanding of user-centered design translating into sitemaps, user flows and customer journey maps to ensure a great user experience
- Development of high quality, responsive final screen designs for web applications and Mobile apps throughout the complete lifecycle
- Development of modern user interfaces/user-oriented solutions based on UX knowledge for various end devices
- Create graphics, icons, layouts and renderings with popular software tools such as Figma, Sketch, Photoshop and Illustrator
- Independent development of functional interaction solutions (user journeys, navigation flows, scribbles, wireframes, interactive prototypes) in close coordination with product owners, business development managers and developers
- Creation and improvement of wireframes, prototypes, style guides and userflows for effective communication of interaction ideas
- Advising customers in the process of design development/development of function-driven interfaces
- Provide guidance in areas of UI/UX to business units and external development partners
- Follow the existing Corporate UI/UX design guideline and support to extend the Component Library for ContiTech to ensure all products are harmonized from UI/UX perspective

Tu perfil

- Academic degree in digital media, UX/UI design, interactive design, mobile/web design or comparable qualification with relevant web design experience
- Profound work experience in the relevant field
- Very good knowledge of a range of design tools e.g. Figma, Sketch, Invision, Adobe Creative Suite
- Ability to create, improve and use wireframes, prototypes, style guides and user flows to effectively communicate your interaction ideas
- Understanding of user-centered design methods, rapid prototyping and responsive web design
- A strong design portfolio to showcase
- Knowledge in frontend coding e.g. HTML/CSS/JavaScript is a plus but not mandatory
