

Head of Plant Production

Descrição da função

General Management and Strategy

Manage and coordinate the production function of the plant/operations unit

Translate plant/operations unit's production strategy into action plans and ensure implementation

Contribute to strategic and operative planning of the plant/operations unit (e.g. with respect to investments, capacity and headcount planning)

Ensure the achievement of production targets according to internal and external customer expectations

Initiate and control investments for production equipment (e.g. production machines, assembly equipment)

Initiate and implement continuous improvement activities by applying CBS methods and training measures

Interface to segment, BU or division functions in order to gather local production requirements and demands and other feedback

Participate in and/or steer global or local production-related and cross-functional projects

Conduct employee dialogues, personnel development and coaching

Financial Management

Prepare, review and manage the budget and forecast of production cost centers

Ensure timely submission of financial data to controlling

Implement and conduct activities according to the budget established

Ensure that the financial goals are met

Production Planning and Control

Ensure planning of all production processes, equipment and employee resources taking into account customer demand and available capacity

Ensure the fulfillment on the daily and monthly production plan and corrective actions with relevant departments

Contribute to regular production planning and control processes (especially in close cooperation with supply chain function of plant/operations unit)

Production Execution

Ensure operation of all production and rework processes and equipment (e.g. mixing, calendaring, extruding, making-up, pressing, vulcanization, assembly, etc.) according to standards and planning in close cooperation with plant maintenance

Ensure operation of in-process quality control and final inspection according to standards and planning

Improve and follow up regularly on quality and losses with relevant departments
