

Mandatory Internship - Product Releases & Systems / Quality RnD - REF93605R

Feladatok

The Tire Research and Development department at our location in **Hanover-Stöcken** is responsible for the quality of our development processes.

In this exciting environment, we offer a **mandatory internship** starting **beginning of June 2026**, with the option to follow up with a thesis project. For the best possible learning experience, the internship should be **6 months** long. A combination of voluntary and mandatory internships is feasible, with the mandatory part lasting at least 12 weeks.

Tasks include:

- Collaboration in the further development of quality-related trainings, including support in the implementation
- Participation in the improvement of the product development process of tires based on analyses of the existing data, e.g. on the development results and market performance
- Support in the development of meaningful quality indicators
- Collaboration in the further development of Continental knowledge management (Yokoten)

Profilja

- Students (m/f/diverse) in the field of mechanical engineering, industrial engineering, mechatronics or comparable study programs
- Specialization or strong focus in Data Science or Quality Management is preferred
- First experience with data visualization and analytics tools such as Tableau or Power BI
- Basic knowledge of database systems
- Confident handling of MS Office-applications
- Very good language skills in German and English, both written and spoken
- Collaborative mindset
- Strong communication skills
- Systematic and organized work style

Please upload the following documents (mandatory):

- For a compulsory internship: the study regulations with the required duration clearly highlighted
- Current certificate of enrollment
- Current transcript of records

If required, additionally:

- Valid residence permit
