

Working Student - Technical Illustration & Training Materials / Process Engineering (m/w/d) - REF93769B

Vos activités

For our Central Process Engineering Tire Building Team at our location **Hanover-Stöcken**, we are looking for a working student (m/f/diverse) starting **as soon as possible (June 2026)**. The position comes with a working time of **20 hours per week** for **12-24 months**.

Your main responsibilities will include creating technical drawings, visualizing machine- and process information, and developing modern training materials.

You will be involved in the following areas:

- Technical Visualization & Documentation
 - Creation of technical illustrations, graphics, process sketches, and flow diagrams
 - Translation of complex topics into clear and easy-to-understand visuals (e.g. machine functions, process flows)
 - Maintenance and updating of existing documentation (e.g. process descriptions, training slides)
- Training Material Development
 - Design of modern training materials
 - Structuring and standardization of learning content
 - Support in the development of Technical Learning Modules, including visuals, explanatory texts, and checklists
- Content Support for Global Projects
 - Support in document creation for projects and training programs
 - Collection, structuring, and visual preparation of best practices, lessons learned, and process comparisons
 - Creation of templates, layouts, and diagrams
- Communication
 - Creation of promotional and communication materials for global projects
 - Preparation of information for communication purposes
 - Visual simplification of complex content

Votre profil

- Enrolled Student (m/f/diverse) in Technical Communication, Media Technology, Industrial Design, or a comparable field
- Technical understanding of machines, processes, or industrial workflows
- Basic knowledge of training & learning concepts in an industrial production environment
- Practical experience in technical drawings / illustrations of technical objects
- Good experience with graphic tools (e.g. Illustrator, Inkscape, Figma, Power BI visuals)
