

# Electrical Engineer Technician

## Tvoji zadaci

The Electronic Engineering Technician supports plant operations by maintaining, troubleshooting, and improving the electronic, electrical and control systems used throughout rubber compounding, mixing and finishing processes.

### HOW YOU WILL MAKE AN IMPACT

- Demonstrate strong troubleshooting skills, with the ability to think beyond equipment symptoms to identify true root causes. Some night and weekend support will be required as needed to support operations.
- Diagnose electrical and controls-related issues; support equipment repair, system restart, and stabilization during breakdowns within assigned areas of responsibility.
- Provide controls and automation support using Allen-Bradley (Rockwell) PLC platforms, including but not limited to ControlLogix, CompactLogix, SLC, PanelView, FactoryTalk View SE, and FactoryTalk Transaction Manager (FTTM). Responsibilities include troubleshooting, programming, commissioning, and ongoing support.
- Maintain and update electrical and controls documentation using AutoCAD to ensure prints and schematics remain accurate and current.
- Apply project management skills to coordinate work with contractors and internal maintenance and engineering personnel on controls and automation projects.
- Support modernization initiatives by upgrading legacy controls systems to ensure compatibility with Continental data collection, automation, and corporate software platforms.
- Support planning and implementation of new production lines, including layout development, electrical design, control panel layout, PLC programming, and HMI development.
- Drive increased automation and digitalization initiatives aligned with Industry 4.0 objectives.
- Monitor process performance and support new product ramp-ups, contributing to continuous improvement initiatives across the facility.
- Prepare, configure, and maintain plant electrical controls systems to interface with the Manufacturing Service Bus (MSB) and Continental corporate software platforms to enable real-time process data collection.

## Tvoj profil

### WHAT YOU BRING TO THE ROLE

- Associate Degree in Electronics Engineering Technology, Electrical Engineering Technology, Industrial Automation or related field
- 3+ years Electrical Tech with PLC experience (Allen Bradley, Siemens)
