

# Responsible Value Chain Due Diligence Specialist - CTBC

## Your tasks

### Your role

As a valuable team member of the Sustainability team for Responsible Value Chain Management and External Requirements, you are contributing with your strong analytical and communicative skills. Your guidance of internal business partners in maintaining our RVC Framework to comply with human rights and environmental due diligence obligations in ContiTech is key for our success.

### Key tasks:

- Coordinate the timely execution of RVC Adverse Impact Analysis in close alignment with Central Functions
- Analyze results and support the implementation of preventive measures in alignment with relevant stakeholders
- Support the processing of RVC Incidents within the defined incident management
- Coordinate the support of implementation of remedial actions resulting from the RVC Incident process
- Develop strategies to continuously improve the efficiency of our RVC Incident Management
- Support the RVC training activities within ContiTech
- Coordinate RVC internal reporting processes, including the development of dashboards and tools that track progress on improvement initiatives.
- Contribute to the external reporting obligations (e.g., Modern Slavery Statements like UK, Australia, Canada)
- Support the RVC System Review process
- Collaborate closely with internal stakeholders for the continuous improvement of our Framework
