

Senior Product Owner - CTBC

あなたの仕事内容

The Product Owner (PO) is a member of the Agile Team consisting of the Development Team, and Scrum Master.

The PO is the content authority for the delivery of the Agile Team and in this regard, the owner of the product backlog.

The PO serves as the interface of the Agile Team to all its stakeholders at Global level and involving all the regional BA's

The Product Owner (PO) has the content authority for an Agile Team.

The PO manages all stakeholders of the Agile Team and clarifies requirements until they are considered ready by the team. The PO manages and breaks down the complexity of the product developed by the Agile Team and drives the incremental deliveries.

Define, refine and document product features, e.g. with the help of wireframes, user flows and design thinking workshops in collaboration with UI/UX designer

Prioritize the product backlog and ensure that it is visible, transparent, and clear to the Development Team

Define Story Acceptance Criteria and support decomposition of requirements and specifications

Seek exposure to relevant stakeholders to capture requirements to make data driven decisions

Drive development by collaborating with the team to derive the plan, delivery scope, estimations, iteration goals, and gaining a team commitment

Develop a vision and a strategy for the product

Coordinate content dependencies with other Agile Teams (if required)

Cross collaboration with other functions depending on project requirement

Accept stories as done including validation of the stories meeting acceptance criteria

Evaluate and control product quality to ensure continuous improvement

Participate in Team demos, system demos, inspect and adapt workshops and retrospective meetings. Provide feedback for improvements

Responsible for the conceptual and technical integrity of the features or components with the support from tech lead

Coordinate data protection compliance and cybersecurity of the application

Ensure product performance of the solution using data analytics

Preparation of Program increment for development team

Communicate current status of the Agile Team - internally and externally

Alignment with Product Management Team to plan, deliver and launch
