

# Supply Chain Manager (SCM)

## Your tasks

### Position Summary

The Head of Supply Chain is responsible for leading all supply chain activities within the plant. This role ensures efficient production planning, inventory management, and customer order support while aligning with the plant's strategic objectives and global supply chain standards.

### HOW YOU WILL MAKE AN IMPACT

- Direct all supply chain activities and processes for the plant/operations unit, ensuring efficiency and compliance with company standards.
- Develop and implement the plant supply chain strategy, translating it into actionable plans aligned with Business Unit (BU) SCM and Group objectives.
- Provide strong management oversight, coaching, and guidance to the supply chain team to foster performance and continuous improvement.
- Address daily operational challenges promptly and implement effective solutions to maintain an uninterrupted workflow.
- Execute production planning, scheduling, sequencing, and control based on demand plans, work instructions, and established standards.
- Conduct regular production reviews to ensure adherence to timelines, quality requirements, and operational targets.
- Partner with sales and order management teams to support external customer requirements and resolve order-related issues.
- Manage inventory levels and oversee internal plant warehouses for raw materials, semi-finished goods, and finished goods.
- Supervise receiving, shipping, scheduling, and inventory monitoring processes to ensure accuracy, efficiency, and compliance
- Raw material storage for the plant side.

## Your profile

We're looking for a motivated team member who is eager to grow, learn, and make an impact. This role is a great opportunity for someone ready to take the next step in their career and apply their existing skills in new ways. We value curiosity, adaptability, and a strong desire to continue developing professionally. If you're passionate about learning and contributing to a collaborative environment, we'd love to hear from you.

### WHAT YOU BRING TO THE ROLE

- Bachelor's Degree in related field
- 7 + years of Supply Chain experience in a manufacturing environment.

## **About us**

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2024, Continental generated sales of €39.7 billion and currently employs around 190,000 people in 55 countries and markets.

Guided by the vision of being the customer's first choice for material-driven solutions, the ContiTech group sector focuses on development competence and material expertise for products and systems made of rubber, plastics, metal, and fabrics. These can also be equipped with electronic components in order to optimize them functionally for individual services. ContiTech's industrial growth areas are primarily in the areas of energy, agriculture, construction, and surfaces. In addition, ContiTech serves the automotive and transportation industries as well as rail transport.
