

Global Supply Chain Management Applications - CTBC

工作职责

- Define and drive the global SCM application strategy and roadmap, including lifecycle management for analytics and planning tools (e.g. SAC, R-Tool, Planalyze) to support ContiTech's SCM digitalization across all Business Areas and locations.
- Act as global application process owner for SCM analytics and planning solutions by defining system-process responsibilities (RASI), standard processes, KPIs, and best practices, and by monitoring solution effectiveness.
- Lead application developments, enhancements, and rollouts, including demand planning, capacity planning, performance analytics, and reporting use cases; prioritize requirements and ensure functional testing and user acceptance.
- Manage global user enablement and support, building and coordinating a strong local key-user community, providing training, guidelines, and second-level support for tools such as SAC and Planalyze.
- Ensure stable application operations and governance, including coordination with IT and external providers, budget management, authorization and role concepts, and definition of service level agreements.
- Establish and enforce global application master data and analytics standards, ensuring high data quality, consistent planning logic, and harmonized reporting structures across regions, plants, and Business Areas.

关于我们

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2021, Continental generated sales of €33.8 billion and currently employs more than 190,000 people in 58 countries and markets. On October 8, 2021, the company celebrated its 150th anniversary.

The ContiTech group sector develops and manufactures, for example, cross-material, environmentally friendly and intelligent products and systems for the automotive industry, railway engineering, mining, agriculture and other key industries. Guided by the vision of “smart and sustainable solutions beyond rubber,” the group sector draws on its long-standing knowledge of the industry and materials to open up new business opportunities by combining various materials with electronic components and individual services.
