

Surface Design Summer Intern

Ihre Aufgaben

Join a creative, fast moving team where your ideas help shape the next generation of surface material products. As a **Surface Design Intern**, you'll work at the intersection of design, innovation, and market trends—bringing new designs to life for our LivTec and Automotive customers. This role is perfect for someone who loves turning inspiration into tangible prototypes and wants hands on experience in a real product development environment.

You'll contribute to the full design cycle—from early trend exploration to prototyping and cross functional collaboration—helping ensure our products stand out in the market.

- **Concept Creation & Trend Driven Design** Develop innovative product concepts inspired by emerging trends, customer requests, and competitive market insights for LivTec and Automotive product lines.
- **Prototype Development** Produce small scale samples of selected concepts (approximately 20 prototyped samples) through our in house design center.
- **End-to-End Product Development** Support concept refinement, file creation, prototyping, production preparation and technical checks and production of final product.
- **Product Process & Printing Support** Build an understanding of product development steps and assist with printing related topics for our newest and most innovative printed pool products.
- **Cross Functional Collaboration** Work closely with technical teams, sales, and product management to ensure concepts transition smoothly into manufacturable, sellable products.
- **Market and Trend Research** Analyze customer, market and regional trends to ensure our designs align with real market demand. Investigate new design techniques, materials and market opportunities that help keep our product lines competitive.
- **Business-Focused Design Strategy** Connect concepts to trends and present them in ways that resonate with customers - ultimately contributing to products that successfully sell.
- **End of Internship Leadership Presentation** – Deliver a polished, professional presentation to the management team summarizing your findings, recommendations, and project impact.

THE ENVIRONMENT

Safety is our highest priority and safety procedures and guidelines must

Job ID
REF965020

Arbeitsbereich
Forschung und Entwicklung

Standort
Auburn Hills
