

Intern - Logistics Analyst, Year-Round

Your tasks

HOW YOU WILL MAKE AN IMPACT

The Logistics Analyst Internship will focus primarily on items for the company's logistics department in warehouse and transportation operations.

Responsibilities include:

- Building reports and visualizations in Power BI for executive summaries and operational activities
- Create inventory reporting dashboards
- Create weekly cut report
- Will focus on minimizing detention and demurrage costs for incoming product from both domestic and foreign plants
- Track warehouse throughput daily
- Work on creating back-end data sources using SQL server
- Create data automation workflows with KNIME
- Work on automation of daily tasks and automatic data refreshes with UI Path
- Create dashboards for tracking inbound freight by product group and location to ensure availability and proper timing
- Create 'prioritization list' to ensure warehouse is unloading the proper trailers on a given day to maximize sales
- Weekly review of warehouse volumes in and out by product group
- Ensure that all data supplied to internal colleagues and leadership is validated and correct before distribution
