

# Learning Business Partner - Tires

## Descrição da função

### Learning Business Partner Tires | Learning & Development

At Continental Tires, we are reshaping learning and development to enable future ready capabilities, strong leadership, and a culture of continuous learning. As **Learning Business Partner**, you will play a key role in this transformation.

## Your Key Responsibilities

- Act as a learning business partner and consult Subject Matter Experts and Content Owners from early demand analysis through concept design, make or buy decisions, and implementation.
- Advise on modern learning formats and didactics
- Coordinate learning content development with internal learning designers and external providers.
- Co develop and deploy the Sector Learning Strategy for Tires in close collaboration with the sector learning community.
- Support leaders and teams in building a learner centric, self driven learning culture, including community learning initiatives.
- Steer and further develop the Tires Learning Community (e.g., Learning Business Partners, Learning Administrators) as a global network organization.
- Ensure learning governance, standards, frameworks, and tools across the Business Area.
- Continuously monitor and improve the Tires learning landscape, including regular quality reviews and LMS audits.
- Define, track, and report learning KPIs to ensure transparency and continuous improvement.
- Lead or contribute to cross functional Learning projects.
- Identify best practices and leverage developments to continuously enhance learning solutions.

## Requisitos

- University degree in Human Resources, Psychology, Social Sciences, Communication, or a comparable field.
- Minimum 2 years of experience in Learning & Development, Talent Management, HR consulting, or a business role with strong learning focus.
- Solid knowledge of modern learning methods, instructional design, and learning technologies.
- Experience applying pedagogical frameworks to learning solutions.
- Hands on experience with Learning Management Systems (frontend & backend) and the introduction of new learning formats represents a plus.
- Experience in community, stakeholder, or network management.
- Strong analytical mindset with experience working with KPIs and
