

Head of Section Engineering/ Maintenance

담당 업무

We are seeking an experienced and dynamic **Head of Section, Engineering/Maintenance** to lead our preventive maintenance and engineering operations. This role is responsible for ensuring optimal machine performance, minimizing downtime, and driving continuous improvement through robust maintenance strategies, automation, and team development.

• Leadership & Team Management

- Lead, supervise, and develop the Preventive Maintenance (PM) team in executing daily maintenance activities.
- Train, coach, and enhance the technical competencies of maintenance technicians to build a high-performing team.

• Maintenance Planning & Execution

- Plan, schedule, and oversee preventive maintenance activities for production machinery, equipment, and utilities.
- Ensure all maintenance tasks (PM, Machine Tolerance Check (MTC), and Condition-Based Maintenance (CBM)) are completed in accordance with established schedules and standards.

• Breakdown Management & Continuous Improvement

- Lead troubleshooting efforts during machine breakdowns, conduct root cause analysis (RCA), and implement effective corrective and preventive actions.
- Monitor machine performance, downtime, and maintenance costs to drive continuous improvement initiatives.

• Technical Expertise & Automation

- Manage and troubleshoot machine control systems, including Siemens PLC and other automation platforms.
- Leverage IoT technologies to enhance maintenance practices and predictive capabilities.

• Maintenance Systems & Standards

- Develop, review, and continuously improve maintenance procedures, checklists, and standards.
- Ensure effective spare parts management, including inventory control and availability.

• Cross-Functional Collaboration

- Collaborate with Production, Engineering, Quality, and external vendors to support maintenance activities and projects.
- Provide technical support for installation, commissioning, modification, and improvement of equipment.

• Compliance & Safety

- Ensure adherence to safety regulations, local legal requirements, GMP standards, 5S practices, and company policies.
