

(Mandatory) Internship - Data Analysis / Tire Line Development - REF97116B

Your tasks

Tire Line Development Group (APAC) at our location Hannover-Stöcken is in charge of developing new tirelines for APAC market and act as spear head in location. Within this exciting work environment, we are offering an **internship** position **starting as soon as possible**. For the best learning experience possible, the internship should require a duration of **3 months**.

Tasks Include:

- Optimizing reporting processes with a focus on process and system integration
- Automating data collection, as well as creating and updating reports and dashboards, including data visualization
- Enhancing transparency and sustainability by extending system integration within the reporting landscape
- Collaborating with cross-functional teams to support various R&D initiatives
- Assisting in the design, development, and testing of new tires and technologies

Your profile

- Enrolled student (m/f/diverse) in Engineering, Chemistry, Physics, IT, or a comparable field
- Mandatory internship required by the study program
- Confident handling of MS Office (especially Excel and PowerPoint)
- Experience with data analytics tools (e.g., Power BI, Tableau)
- Strong interest in research, innovation, and data-driven work
- Fluent in English (written and spoken)
- High level of flexibility and willingness to learn
- Creative, solution-oriented, and precise working style
- Ability to work independently as well as collaboratively within a team

Please attach your current **certificate of enrollment** and also your **current transcripts of records** and if possible an extract of **certificate for a mandatory internship**. Those documents are mandatory for processing your application.

If required, please submit your **valid residence permit** as well as your **work permit** including the additional sheet.

Applications from severely handicapped people are welcome.
