

(Senior) MLOps Engineer (m/f/d) - REF97172N

Your tasks

Join Continental's Digital Solutions Department as an MLOps Engineer

In Digital Solutions, we drive innovation for connected mobility and deliver cutting-edge digital products to our global fleet customers. As an MLOps Engineer, you will be at the forefront of transforming machine learning into scalable, production-ready solutions.

You will design, deploy, and maintain **robust ML pipelines**, ensuring seamless integration of models into production environments and optimizing their performance at scale. Working closely with **Data Scientists, Data Engineers, and cross-functional teams**, you will enable AI-driven insights that power smarter, safer, and more efficient mobility worldwide.

This position is intended to be filled on a full-time basis. However, applications for part-time employment will be considered in accordance with business needs.

Main responsibilities:

- Design and manage CI/CD pipelines for ML models from development to production
- Build and maintain scalable ML infrastructure on cloud platforms using infrastructure-as-code
- Automate deployment, monitoring, and rollback processes for reliability and reproducibility
- Implement monitoring and feedback loops for model performance and continuous improvement
- Collaborate with data scientists and engineers to integrate ML models and standardize workflows
- Provide technical leadership and mentorship, fostering knowledge sharing and best practices

Your profile

- Academic degree in Computer Science, IT, Engineering, Mathematics, or related field
- Several years of professional experience as a MLOps Engineer
- Strong programming skills in Python and SQL
- Expertise in CI/CD and automation tools (e.g., GitHub Actions)
- Proficiency in containerization and orchestration (Docker, Kubernetes)
- Hands-on experience with ML model deployment and lifecycle management (MLflow, SageMaker)
- Good knowledge of cloud platforms (AWS or Azure) and infrastructure-as-code practices
- Familiarity with monitoring and performance tracking tools (Grafana) and workflow orchestration (Airflow)
