

Business Systems Analyst / Demand Planner Key User - SAP APO

Ihre Aufgaben

HOW YOU WILL MAKE AN IMPACT

SAP Advanced Planning and Optimization (APO) Key User - Business Systems Analyst is responsible for all aspects of demand planning, statistical modeling, and related data flow of the Continental Tire US PLT RE SAP APO DP and John Galt Atlas software.

Tasks include: leading activities and initiatives behind both systems and communication of those to both internal and external stakeholders as well as comprehensive user support and training. You will work closely with sales, demand planners, analysts and IT personnel, and other cross-functional teams, ensuring effective collaboration, user adoption, and system optimization.

- Determines which forecast model best fits product or product groupings based on historical data analysis and updates statistical (baseline) forecast models and outputs as needed
- Collaborates with Demand Planners and makes forecast improvements through product grouping, system changes, and/or model changes for both APO and Atlas
- Coordinates and generates standard reporting for KPI's based on Statistical forecasting for the US PLT RE for both APO and Atlas
- Monitors product phase in/out process and adjust both system parameters to reflect correct article and customer level baseline forecast (creates new entry records such as APO CVCs, assigns modeling profiles, updates Item and Customer Master etc.)
- Creates, maintains, and updates internal and external data or data format/accuracy to assure successful daily batch runs for Atlas
- Maintains documentation of APO and Atlas system and end user training, performs end user training for new demand planners and others on as needed basis
- Monitors interface between SAP APO/Galt ATLAS and other system and data flow from internal and external sources and alerts IT and end users when issues arise. Maintains certain system data and parameters relevant for batch and FC runs
- Creates and maintains weekly and monthly reports on baseline (statistical) FC and external data (SellOut and Customer OnHand) as well as any system generated alerts
