

End of Line Inspection (EOL)

Your tasks

The End of Line Inspector will be responsible for inspecting tires from the sorter (PTS) station and verifying each tire meets all factory and customer standards.

End of Line Inspectors will be required to:

1. Efficiently inspect each tire routed to their station.
2. Have the ability to lift any tire in the PLT production system and efficiently place the tire in an assigned location.
3. Verify each tire is free of basic anomalies.
4. Remove all existing flash to within factory standards.
5. Report all anomalies to their supervisor or designate.
6. Promptly clear any tire jams and reset as required any devices to maintain production flow.
7. Must maintain an inspection pace such as to prohibit process back logs.
8. Must perform all tasks safely and obey all safety rules and guidelines.
9. Must properly stamp every tire inspected regardless of its destination.
10. Routinely throughout each shift clean any flash or other debris in the work area.
11. Promptly report any unsafe conditions and any items that may need repair.
12. Follow the posted break and lunch schedules.
13. Properly route any suspect tires into the correct containment to prevent inclusion into the production system.
14. Perform all tasks indicated in this description within a group as a unified team.
15. Pass vision acuity and color blind tests annually.
16. Have a thorough understanding of the production process and quickly diagnose process errors.
17. Have a thorough understanding of bar code requirements and the efficient ability to correct bar code errors.

About us

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2023, Continental generated preliminary sales of €41.4 billion and currently employs around 200,000 people in 56 countries and markets.

With its premium portfolio in the car, truck, bus, two-wheel and specialty tire segment, the Tires group sector stands for innovative solutions in tire technology. Intelligent products and services related to tires and the promotion of sustainability complete the product portfolio. For specialist dealers and fleet management, Tires offers digital tire monitoring and tire management systems, in addition to other services, with the aim of keeping fleets mobile and increasing their efficiency. With its tires, Continental makes a significant contribution to safe, efficient and environmentally friendly mobility.
