

Frontend Developer - Digital Solutions

Feladatok

Continental's Data & Customer Solutions Competence Center develops innovative digital products that support both our customers and internal teams, and we'd love for you to be part of it!

Our Digital Solutions IT team is searching for a talented Frontend Developer to strengthen our team for the product ContiConnect.

As a Frontend developer, you will work in a SAFe/Scrum team closely with the backend developers, solutions architects and mobile app developers to build and enhance our existing and future digital services within Continental Tires. With this job, you join the global team working on our product ContiConnect, a digital tire monitoring platform for commercial fleets around the world.

Main Responsibilities:

- Development and maintenance of software features, including views, UI components, and integration with the backend;
- Create reusable UI components that can be used across ContiConnect and other Continental applications;
- Identify and resolve performance issues;
- Following agile processes, operational excellence, and coding best practices such as clean code, readability, and test-driven development;
- Work as a team player in a collaborative environment and interact effectively with others while bringing in thoughtful perspectives, empathy, creativity, and a positive attitude to tackle problems at scale;
- Embrace Continental's core values: Trust, freedom to act, passion to win, for one another.

Profilja

- University degree in Computer Science, Software Engineering, or other related field;
- +3 years of work experience in business web application development;
- Advanced experience in HTML5, CSS3, Sass, Bootstrap, JavaScript, Typescript and Angular (preferably Angular 19+);
- Experience with global state management (Rxjs);
- Experience with responsive web development & cross browser testing;
- Experience with git version control;
- UX knowledge is a plus;
- Knowledge of CI/CD tools like Jenkins is a plus;
- Ability to communicate effectively with technical and business stakeholders;
- Excellent written and verbal communication skills;
