

Maintenance Technician

Your tasks

The Maintenance Technician is responsible for maintaining, troubleshooting, repairing, and improving manufacturing equipment used in production operations. This role ensures equipment reliability, maximizes production uptime, and supports safe, efficient, and high-quality manufacturing processes while adhering to all safety, environmental, and operational standards.

HOW YOU WILL MAKE AN IMPACT

- Performs preventive, predictive, and corrective maintenance on manufacturing equipment to ensure safe and reliable operation.
- Conducts routine inspections and condition assessments to identify potential equipment issues before failures occur.
- Diagnoses mechanical, electrical, pneumatic, hydraulic, and control system malfunctions using appropriate diagnostic tools and troubleshooting techniques.
- Repairs, replaces, adjusts, and aligns machinery components to restore equipment performance and reliability.
- Responds promptly to equipment breakdowns and emergency maintenance requests to minimize production downtime.
- Collaborates with production, engineering, and reliability teams to improve equipment performance and support operational objectives.
- Maintains accurate maintenance records, work orders, inspection reports, and equipment history within the company's maintenance management system.
- Identifies recurring equipment issues and recommends corrective actions to improve reliability, maintainability, and overall equipment effectiveness (OEE).
- Supports Root Cause Failure Analysis (RCFA) activities and participates in continuous improvement initiatives.
- Safely operates and maintains hand tools, power tools, precision measuring instruments, and specialized manufacturing equipment.
- Adheres to all company safety policies, Lockout/Tagout (LOTO) procedures, environmental requirements, and quality standards.
- Supports maintenance performance objectives and contributes to the continuous improvement of key maintenance metrics, including Mean Time Between Failure (MTBF) and Mean Time to Repair (MTTR).
- Assists with special projects and performs other duties as assigned by maintenance leadership or management.

Your profile

WHAT YOU BRING TO THE ROLE

- Associate of Applied Science (AAS) degree in Mechatronics, Electrical Maintenance, Mechanical Maintenance, Industrial Maintenance, or a related technical field; or a minimum of four (4) years of industrial maintenance experience.
