

MES Specialist / Software Developer (MCAT)

Vos activités

Join Us in Shaping the Digital Future of Our Global Tire Plants

Our **IT Competence Center Manufacturing** leads the digital transformation of Continental's tire plants around the world – and we'd love for you to be part of that journey.

We are looking for a Software Developer to join our Manufacturing Execution development teams in San Luis Potosi. The successful candidate will have a quality-first mindset and an eagerness to grow and develop, always looking for opportunities to improve.

As a Software Engineer you would be helping us deliver state-of-the-art solutions, to an exciting and growing industry, working with teams from multiple locations worldwide.

Main Responsibilities:

- > Ensure consistent operations of our MES (Manufacturing Execution Systems) ; a critical IT system for our tire manufacturing systems
- > Support and coordinate software enhancements process and worldwide roll outs for all tire plants.
- > Define and document "Best Practices" regarding application support and ongoing operations.
- > Ensure the quality of the delivered software by troubleshooting and debugging
- > Work as part of a multi-skilled Global team to deliver value to our customers.
- > Share own knowledge and listen to feedback from other team players, as part of a multinational team

Votre profil

Essential:

- University degree in Computer Science, Information Technology or equivalent qualification
- Minimum 5 years of IT working experience
- Professional English language skills in both written and spoken communication
- Good knowledge: SQL, System Development Life Cycle Methodology (SDLC), ITIL, .NET
- Confidence in navigating an international, multicultural environment
- Flexibility, commitment and ability to work in global teams
- Willingness to travel (approx. 20%, world-wide)
