

# Compliance Data Analytics and Tool Specialist

หน้าที่ความรับผิดชอบในงานของคุณ

We are looking for a Compliance Data Analytics and Tool Specialist to support Compliance teams (Compliance Program, Export Compliance, Corporate Compliance) with operational tasks. The role contributes to data transparency and continuous improvement by tracking operational performance, supporting reporting and analytics. It also ensures efficient and standardized administration of compliance tools by managing user access, handling tickets, and maintaining high data quality within defined processes and SLAs.

## Key Responsibilities

### Data Analytics

Prepare and maintain high-quality datasets by performing data gathering, data cleaning, validation, and structured data lookups, ensuring accuracy and consistency for analysis and reporting.

Conduct structured data analysis using established tools (esp. Excel and Power BI) and develop insightful reports and dashboards

### User & Access Management

Create, modify and deactivate users across tools (Dragonfly, KYBP, EQS Integrity)

Execute role assignments based on predefined role concepts and approved access requests

Maintain user master data (correct incomplete or inconsistent entries, ensure data quality in systems)

### Ticket Administration

Central intake of all tool-related tickets, ticket classification and prioritization

Handling of access requests, technical issues and user inquiries

Coordination with IT/3rd-level-support and Compliance Program team for escalations including status updates to requestors and internal stakeholders

Ensure transparency (ticket progress, expected resolution timelines)

### Escalation Handling

Identification and escalation of complex cases, non-standard scenarios, policy deviations
