

Mobile Application Developer (m/f/d) - REF97871I

Tus actividades

Continental's digital capabilities are growing every day. Our Customer and Data Solutions Information Technology team creates a wide range of technology solutions for Continental's Global Sales and Marketing teams - and we want you to join us!

Our team continuously works on the digitalization of our business-to-business processes and end consumer communication, using leading web & mobile technologies and a strong focus on data science and artificial intelligence. We run Continental's global customer relationship management platform, which supports our Sales colleagues in their daily interaction with customers.

If you'd love to join a global team that works on the latest technologies and creates value-added solutions for customers, Continental is the perfect match for you.

This role is particularly exciting as it involves supporting services related to tire sidewall details recognition, delving into cutting-edge AI topics at the forefront of technology innovation.

Your responsibilities will include collaborating with our AI research and development team to integrate cloud-based infrastructure seamlessly with AI models into mobile application, optimizing workflows for efficiency and accuracy.

In this exciting job you work on the following tasks:

- Develop, test, and deploy SDKs written in Swift for native iOS, Java or Kotlin in native Android, and Dart for Flutter.
- Scale, refactor, and provide functional/technical design for currently developed SDKs in Swift, Kotlin, and Flutter.
- Take responsibility for running, deploying, and maintaining applications on the Conti App Store, Apple App Store, and Google Play Store, while maintaining the CI/CD environment.
- Manage external vendor(s) and offshore developers for mobile applications support & development, ensuring defined SLAs are strictly followed.
- Manage incidents, changes, and troubleshooting related to mobile applications via service desk tools.
- Conceptualize and implement new business ideas while aligning with data scientists, cloud engineers, and other mobile app developers.
- Take part in the product development process while working in an agile team (Agile/SCRUM).
- Develop and work on innovation topics (e.g., develop new MVPs).
- Work with UI/UX designers to develop new apps following modern state language (e.g., Material 3).
- Establish QA requirements and carry out end-to-end unit testing for the applications and SDKs.

Tu perfil

- Academic degree in computer science or similar field of studies, or comparable qualification.
- Several years of solid work experience in native and cross-platform mobile application development.
- Thorough knowledge in native iOS development (Swift) or native Android development (Java/Kotlin).
- Working knowledge and development experience with the Flutter cross-platform framework is a plus.
- Basic experience in Agile project management methodologies and ITIL/Service Management processes.
- Fluent English skills (written and spoken).
- Willingness to learn and a strong eagerness to grow.

Applications from severely handicapped people are welcome.

Lo que ofrecemos

You are going to work 37.5 hours a week in a team of 9. We offer 30 days of vacation per year.

Being part of a global IT team of thousands of colleagues working on various innovations and tasks, there is always an opportunity to grow and move into different directions within our corporation.

On top of that you can expect the following benefits:

- Individual development planning based on your personal needs and targets (e. g. mentoring, trainings or global internal Software Academy)
- Work from home up to 2 days a week (unless workshops etc. require physical presence)
- Option to work from other EU countries up to 40 days per year
- 13 salaries per year
- Agile and collaborative workstyle
- Opportunity to make a difference
- Employee discounts
- An international team across 3 locations in a globally active organization
- Company and tariff pension plan
- Health insurance
- Assistance with child-care
- Relocation package offered if needed
- Canteen on-site
- Sabbatical option
- Payment under chemical industry tariff
- 3 extra days off for learning (called future value)
- Possibility to take overtime

If this sounds like a perfect match for you and if you want to become the next supporter of our core values Trust, For One Another, Passion to Win and Freedom to Act, we are looking forward receiving your application.

Acerca de nosotros

Continental is a leading tire manufacturer and industry specialist that develops and produces sustainable, safe and convenient solutions for automotive manufacturers as well as industrial and end customers worldwide. Founded in 1871, the company generated sales of €19.7 billion in 2025 and currently employs around 78,000 people in 54 countries and markets.

Tire solutions from the Tires group sector make mobility safer, smarter, and more sustainable. Its premium portfolio encompasses car, truck, bus, two-wheel, and specialty tires as well as smart solutions and services for fleets and tire retailers. Continental has been delivering top performance for more than 150 years and is one of the world's largest tire manufacturers. In fiscal 2024, the Tires group sector generated sales of 13.9 billion euros. Continental's tire division employs more than 57,000 people worldwide and has 20 production and 16 development sites.
