

Internal - Mixing Laboratory Technician - Night Shift (B Shift)

Náplň práce

YOUR TASKS

This role supports raw material quality assurance and laboratory excellence by executing testing, analyzing results, maintaining laboratory equipment, and ensuring compliant release of incoming materials for production. This role partners with manufacturing, engineering, purchasing, logistics, and supplier quality teams to drive quality performance and continuous improvement.

HOW YOU WILL MAKE AN IMPACT

- Perform raw material, compound, reinforcement, and chemical testing according to test plans and production requirements.
- Review test results, determine re-testing needs, and communicate testing priorities with internal customers.
- Support supplier complaint management, including evidence collection, corrective action follow-up, and 8D review.
- Monitor supplier quality performance and assist with audits and continuous improvement initiatives.
- Ensure compliance with quality systems, including IATF 16949 requirements and laboratory procedures.
- Participate in internal and external audits and support corrective action activities.
- Perform routine laboratory equipment maintenance and escalate issues when necessary.
- Support process improvement projects related to materials, packaging, logistics, and supplier performance.
- Promote environmental, health, and safety standards within the laboratory.
- Utilize strong problem-solving, organizational, and communication skills.
- Be self-managed, detail-oriented, and capable of performing under pressure.
- Follow all plant, ESH, CBS, quality, and department processes and procedures.
- Other duties as assigned.

NOTE: May not be inclusive of all work required and may be updated as needed.

Profil kandidáta

WHAT YOU BRING TO THE ROLE

- High school diploma or equivalent
- Knowledge of laboratory testing methods and quality management systems
- Advanced proficiency with Microsoft Excel, Word, and PowerPoint
