Full Stack Developer

Your tasks

Main Responsibilities:

- Shaping the frontend and backend architecture of the CESAR web application;
- Implementing features through active collaboration with business partners;
- Providing support of the productive system by solving bugs;
- Driving development standards, code reuse, and agile principles within the agile development team;
- Enhancing the technical documentation and our test scenarios.

Your profile

- University Degree in Computer Science, IT or related field;
- + 2 years of professional experience in full-stack development with Angular (12+) and Java (11+) with Spring Boot;
- Strong knowledge of TypeScript, JavaScript, HTML5, and CSS3;
- Proficiency in RESTful APIs and WebSockets;
- Experience with databases (PostgreSQL);
- Familiarity with container technologies (Docker, Kubernetes) is a plus;
- Proficiency in Git, CI/CD tools and agile methodologies (Scrum);
- Willingness to travel (up to 10%, incl. business);
- Analytical mindset and good problem-solving skills;
- Good organizational skills;
- Proficiency in English language skills (written / verbal).

Our offer

Our offer:

- Integration in a challenging and international work environment;
- Flexible working model;
- Collaborative working style;
- Continuous opportunities for the promotion of talent and training;
- Opportunity to make a difference.

We are committed to fostering a workplace where everyone feels safe, respected, and valued. All kind of applications are welcome.
