- Assist with user account creation, password resets, and access management.
- Troubleshoot and resolve technical issues in person, by phone, or through a help desk ticketing system.
- Perform software installations, updates, and system maintenance.
- Assist with inventory management of IT equipment and technology assets.
- Document support requests, resolutions, and technical procedures.
- Support onboarding and offboarding activities by preparing and collecting IT equipment.
- Help maintain compliance with company security policies and best practices.
- Participate in IT projects and other technology initiatives as assigned.
- Must be able to analyze and solve problems effectively while providing excellent communication and customer service.
- Must be able to work independently and as part of a team, adapting to changing priorities and learning new technologies as needed.
- Be self-managed, detail-oriented, and capable of performing under pressure.
- Follow all plant, ESH, CBS, quality, and department processes and procedures.
- Other duties as assigned.

NOTE: May not be inclusive of all work required and may be updated as needed.
