

Health & Safety Specialist

工作职责

The Health & Safety Specialist will:

ESH Management System Development and Maintenance

- Support the implementation, maintenance, and continuous improvement of the ESSH Management System.
- Assist in the development and administration of management system standards, procedures, tools, and governance practices.
- Coordinate management system reviews, assessments, and improvement initiatives.
- Help evaluate management system effectiveness and identify opportunities to improve consistency, efficiency, and sustainability.
- Support the standardization of ESSH management system practices across the organization.
- Maintain management system documentation and supporting records.

Process Governance

- Support development and maintenance of the ESSH Process Governance Framework.
- Document, map, maintain, and improve ESSH business processes, workflows, procedures, and work instructions.
- Translate regulatory requirements, organizational commitments, and business objectives into structured, repeatable, and sustainable processes.
- Develop and maintain process maps, workflow diagrams, responsibility matrices, and process documentation.
- Collaborate with stakeholders to clarify process responsibilities, workflow requirements, escalation protocols, and performance measures.
- Evaluate existing processes to identify gaps, inefficiencies, redundancies, and opportunities for improvement.
- Facilitate process improvement initiatives that enhance consistency, accountability, operational effectiveness, and management system maturity.
- Support integration of ESSH requirements into business operations and organizational processes.
- Promote process governance practices that improve visibility, repeatability, accountability, and long-term sustainability.

Compliance Planning & Obligation Management

- Develop and maintain ESSH compliance calendars, schedules, and recurring activity tracking systems.
- Support identification and tracking of regulatory requirements, permits, inspections, certifications, reporting obligations, and organizational commitments.
- Maintain compliance obligation registers and related management

system records.

- Monitor completion status of recurring activities and provide visibility into upcoming, completed, overdue, and at-risk requirements.
- Support preparation of materials for management reviews, compliance reviews, and leadership updates.
- Assist in developing reporting tools that improve visibility into compliance status and associated risks.

Data Governance & Performance Reporting

- Support development and maintenance of ESSH performance metrics, dashboards, scorecards, and reporting tools.
- Help establish practices that promote data quality, consistency, accuracy, and reliability.
- Conduct routine data validation and quality assurance activities.
- Analyze trends and provide insights that support performance improvement efforts.
- Assist in preparation of monthly, quarterly, and annual ESSH performance reports.
- Maintain processes for data collection, validation, analysis, and reporting.

Document Control & Records Management

- Administer the ESSH document control program.
- Maintain controlled policies, procedures, standards, forms, manuals, and related management system documentation.
- Coordinate document reviews, revisions, approvals, distribution, and archival processes.
- Ensure controlled documents remain current, accessible, and properly maintained.
- Support records retention and regulatory recordkeeping requirements.
- Maintain organized and audit-ready documentation systems.

Audit Readiness & Management System Assurance

- Support preparation for internal audits, external audits, regulatory inspections, customer assessments, and certification activities.
- Coordinate collection and organization of audit evidence and supporting documentation.
- Maintain audit schedules, findings logs, action item trackers, and related records.
- Assist with management system assessments, compliance reviews, and gap analyses.
- Support development, tracking, and documentation of corrective and preventive actions.
- Promote ongoing audit readiness through effective documentation, recordkeeping, and governance practices.

Corrective Action & Continuous Improvement

- Coordinate corrective and preventive action tracking processes.
- Monitor actions resulting from audits, inspections, incidents, assessments, and management reviews.
- Support root cause analysis, lessons learned activities, and continuous improvement initiatives.
- Assist with documentation and evaluation of corrective action

effectiveness.

- Identify opportunities to strengthen management system performance and process effectiveness.
- Support projects that advance ESSH management system maturity and operational excellence.
- Ensure all ESH procedures, policies and legal requirements are implemented and monitored.

NOTE: May not be inclusive of all work required and may be updated as needed.

To be transparent about hiring for this position, Continental has identified a preferred candidate. This is not intended to discourage other candidates from applying for this position. Furthermore, Continental has not offered the preferred candidate the position. "Preferred Candidate" means either 1) the position is being performed by someone who satisfies the job's requirements, or 2) a current employee has been identified as a successor through HR processes.
