

Senior Frontend Web Developer

Vaše náplň práce

Passionate people with good ideas and enthusiasm are our foundation of becoming the leading player for automotive and tire related services in EMEA. As a front-end developer, you'll create user centric B2C web applications and play a crucial role in bringing the vision to life!

We are ContiTrade, the fast-moving and agile trade organization of Continental. With over 1500 own branches and franchise partners we offer high quality products and car services across EMEA. You will develop appealing front-end web design and use your expertise to build and add to best-in-class web solutions for our customers. This role allows you to be a part of a development team and the opportunity to influence in other key projects inside our organization. Our team is using Adobe Experience Manager as our central eCommerce platform for our marketing activities of our customer facing brands like BestDrive by Continental.

Join us to shape the future of ContiTrade!

What awaits you?

- Develop and implement frontend components or requested new features according to a written specification in CMS Adobe Experience Manager and/or JavaScript Framework (e.g. React, Angular, LitJS) for customer-facing websites.
- Provide operational support for the frontend applications, including bug investigation, issue resolution, maintenance activities, and continuous improvements.
- Lead agile ceremonies like refinements and sprint planning in order to refine changes described by PO and plan them accordingly• Accurately translate user and business needs into functional front-end code.
- Create technical concepts as part of feature refinements
- Leverage AI-assisted development tools (e.g., GitHub Copilot, ChatGPT, Cursor, Claude, or similar) to accelerate frontend development and improve code quality.
- Effectively integrate AI into the development lifecycle while maintaining high standards for code quality, security, performance, and
