

Internship - Automation & Digitalization for MTA Curing & Spraying (m/w/d) - REF98984W

Your tasks

Our department coordinates the technical part of development projects at over 20 production sites around the world. We are jointly responsible for the development, prototyping, rollout and commissioning of machines worldwide. Our tasks include the further development and regular modernization of over 4000 production machines. Accordingly, our engineers work closely with external suppliers of industrial systems, control technology and HMI.

We are looking for a **full time** intern (m/f/diverse) starting in **October 2026** for **3 months** of internship.

Tasks include:

- Digitalization & innovative ideas for creating training materials/ videos using AI or any technology
- Creation of operation training materials for production, maintenance & operators
- Develop & improve Power BI dashboard to represent scrap analysis & machine database
- Creation of technical presentations & support for functional description
- Support in trials with Innolab curing press and commissioning of project software

Your profile

- Ongoing studies in electrical engineering, computer science, mechatronics or similar, ideally with a specialization in Industrial Automation
- Initial experience working with databases, datasets & semantic models
- Good command in generating Power BI reports
- Good knowledge of AI tools for creating innovative materials, HMI, IoT
- Competent handling of MS-Office – Particularly Power Point, Teams, List
- Basic knowledge of programming PLC is welcome
- Good command of English and German, written and spoken
- Great communication and networking skills
- Structured & creative thinking
- Hands-on mentality

Applications from severely handicapped people are welcome.
